Trend Insight

NIFTY 50 shows a long-term upward trend with prices mostly staying above the 20-day moving average, indicating bullish momentum over the 5-year period.

Volatility Insight

Market volatility remains around 2.9%, showing moderate risk with occasional high-fluctuation periods during major economic events.

Performance Insight

Top-performing stocks in the NIFTY 50, led by BHARTI and UTIBANK, show 5-year CAGR significantly higher than the overall index CAGR of ~4.2%, indicating consistent long-term outperformance across the top-ranked stocks

Volume Insight

Based on the standard deviation of daily returns (~2.79%), the NIFTY 50 exhibits moderate volatility over the selected 5-year period, with higher fluctuations during certain market phases, indicating periods of elevated risk.
